

Sarthak Bhatt

Contact Number – 9910478496

Email Id – shivam.bhatt04@gmail.com

Career Objective:

To make a mark and excel in my profession with skill, knowledge and commitment towards my work.

Educational Qualification:

- 2023: B-Tech from AKTU
- 2019: Intermediate from CBSE Board,
- 2017: High School from ICSE Board

Technical Summary:

Languages	HTML ,CSS, Javascript ,Core Java,Typescript
Web Technologies	React Js, Next Js,SASS, MUI, Bootstrap, GIT, EJS,React Testing Library, Jest, Redux, Redux Toolkit, Node js, Express Js, Tailwind CSS
Operating Systems	Windows
Tools/IDE	Intellij, Vscode

Internship and Experience - :

Worked at Credex technology from Jan 2023 to Jan 2024.

Projects:

=====Credex Technology Projects=====

1. Maxsold:

- Developed the frontend user interface for the MaxSold platform, a Canadian-based company specializing in online estate auctions.
- Created intuitive and visually appealing user interfaces using React.js and Sass, ensuring a seamless user experience for online auction participants.
- Implemented responsive design to ensure the platform's usability on various devices and screen sizes.
- Collaborated with the design team to bring their concepts and wireframes to life, offering suggestions for improvements and enhancements.
- Worked on API integrations, making calls to backend services to fetch and display relevant data in real-time.
- Contributed to the continuous improvement of the platform's performance and user interface, resulting in increased user engagement and satisfaction.

2. CSD:

- **Data Presentation with React:** I was tasked with building a robust and user-friendly frontend using React, a popular JavaScript library. Leveraging the capabilities of React, I created a dynamic and responsive interface that catered to the specific needs of the project.
- **Table Data Display:** One of the primary features of the application was to display extensive data in a structured and easily digestible format. I utilized the "react-data-table" library to implement data tables that allowed users to browse, search, and sort through information efficiently.
- **Customization and User Experience:** To enhance the user experience, I customized the appearance and functionality of the data tables. This involved tailoring the table layout, defining column headers, and optimizing data presentation for readability and accessibility.
- **Real-time Data Updates:** The nature of the project required that data be updated in real time. I implemented mechanisms to ensure that users received the latest information as it became available, contributing to a seamless and up-to-date experience.
- **Collaboration and Problem Solving:** My work involved close collaboration with other team members, including backend developers and designers. We collectively addressed technical challenges, integrated APIs, and made data retrieval and presentation as efficient as possible.
- **Quality Assurance:** I actively participated in quality assurance and testing efforts to identify and resolve potential issues or bugs within the application, ensuring a stable and reliable user interface.
- **Testing:** Wrote test cases for components using jest and RTL

=====Personal PROJECTS=====

Github link:- <https://github.com/Saintcyr77> ,

Deployed projects:- <https://beer-app-proj.netlify.app/> and <https://nqueens-viz.netlify.app/>

Current Location : Noida(U.P.)

Activities and Achievements

Ranked 1512 on leetcode weekly algorithm challenge, 400+ questions on leetcode, good in algorithms and data structures.

Personal Details

Father's Name : Suresh Chandra Bhatt

Mother's Name : Anjali Bhatt
Date of Birth : 7th March 2001
Gender : Male
Nationality : Indian
Marital status : Single
Language Known : Hindi & English
Hobbies : Reading and Movies

I hereby declare that the above-written particulars are true to the best of my knowledge and belief.

Thank You.
